TECHNICAL DATA SHEET

Product: Metallic Paint Collection™ Extender for Rolling Code: ME651
Metallic Paint Collection™ Roller Code: ME652

TECHNICAL DATA: ME651 – MODERN MASTERS
EXTENDER FOR ROLLING

THE KEY TO SUCCESSFULLY APPLYING MODERN MASTERS® METALLIC PAINT COLLECTION™ PAINTS by means of a roller lies in the ability to “back-roll” the entire painted finish before the paint dries. Because of the high solids content and low VOC content in Modern Masters Metallic Paint Collection paints, the addition of a slow-drying extender is necessary for effective application by roller. **Modern Masters Metallic Paint Collection Extender for Rolling (ME651)** gives that required extra “wet-edge” time without thinning or compromising the integrity of the Metallic Paint Collection paints. The Metallic Paint Collection Extender for Rolling allows for ‘wet on wet’ faux finishing effects with Metallic Paint Collection paints.

When applying Modern Masters Metallic Paint Collection paints by means of a roller, use the special Modern Masters Metallic Paint Roller (ME652). This unique roller was especially developed to impart the preferred look when rolling the Metallic Paint Collection paints. The high-quality European fabric gives the proper texture needed to maximize the metallic paint look. The beveled ends help prevent lapping. The 100% waterproof core and glue-free construction help make the Metallic Paint Collection Metallic Paint Roller last approximately 10 times longer than regular rollers.

APPLICATION METHOD:

To apply by roller Metallic Paint Collection paints, add up to one quart (16 fl. oz./473 ml) of Modern Masters Metallic Paint Collection Extender for Rolling to one gallon (3.785 liters) of Metallic Paint Collection paint. Mix thoroughly before use. No induction time is needed. Further thinning of the Metallic Paint Collection paints is not needed nor recommended when adding Metallic Paint Collection Extender for Rolling. This addition extends the “wet-edge” or “open time” of the Metallic Paint Collection paints necessary to avoid lapping. Use the Metallic Paint Collection Metallic Paint Roller for large surfaces. Use a 4-inch “sausage roller” (e.g.: Whizz™) for cutting in corners, ceilings, and baseboards. Work in approximately 4-foot wide sections. Keep a “wet edge” while working. Finish the entire painted surface by ‘back-rolling’ in one direction, ceiling to floor. This painting technique

minimizes lap marks, properly orients the metallic particles, and helps ensure a uniform finish.

TECHNICAL DATA SHEET

Product: Metallic Paint Collection™ Extender for Rolling Code: ME651
Metallic Paint Collection™ Roller Code: ME652

Coverage:

When used at the recommended level, Metallic Paint Collection Extender for Rolling will have minimal effects on coverage and hiding of the Metallic Paint Collection paints.

Film Properties:

Modern Masters Metallic Paint Collection Extender for Rolling extends the normal drying times for the Metallic Paint Collection paints. The open time is extended to approximately 40 minutes. Re-coat time is in approximately 1 hour. Dry-to-touch is in approximately 5 hours. Full cure is in approximately 48 hours. Lower temperature and higher humidity will lengthen the dry and cure times.

Storage: Close tightly all containers when not in use. Store in a cool dry place away from direct sunlight. **Do not freeze.** If frozen, allow to thoroughly thaw and come to room temperature before use. Do not reuse containers, and properly dispose of empty containers after use.

Clean Up: Clean brushes, rollers, tools, and equipment with soap and warm water immediately after use.

Packaging: ME651 is available in 16 fl. oz. (1-quart/946ml) and one-gallon/3.785 liter plastic bottles. ME652 is available in individually packaged boxes.

HEALTH AND SAFETY:

Modern Masters Metallic Paint Collection Extender for Rolling is water-based and non-hazardous, making it safe for use. It contains no lead, mercury, or other toxic ingredients.

Warning! If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead

Skin contact: Thoroughly wash with soap and warm water before the coating dries. Individuals with sensitive skin may require gloves.

Eye contact: Rinse with clean water for 15 minutes. Seek medical attention.

Inhalation: To help prevent irritation, use only in well-ventilated areas. If irritation occurs, move to fresh air. If irritation persists, seek medical attention.

Ingestion: Do not induce vomiting. Seek medical attention.
